

Current ESPI report No. 20/2020

Date: 2020-09-07

Subject: Information about new trade agreements on the Polish market

Legal basis: Article 17 paragraph 1 MAR - confidential information

Content of report:

Management Board of QuarticOn S.A. (Company, Issuer) informs that today, i.e. on September 7, 2020, the Issuer signed with Duka International S.A. an agreement for the selling of technology based on artificial intelligence that automates sales in online stores (personalized recommendation engine, Smart Search).

The total estimated value of the mentioned above contract, together with contracts for the supply of a similar package of products with three other online stores operating on the Polish market signed in recent days, is 190 thousand PLN (42k EUR) per year. The conditions for the implementation of the above-mentioned contracts, including the possibility of withdrawing from it or breaching its terms, do not differ from the terms commonly used for this type of contract.

Agreements concluded on the Polish market are largely the result of the development of the sales strategy based on the partner channel, including partnership cooperation with Orange Polska, about which the Company informed in the current report ESPI No. 9/2020.

In the opinion of the Company, the above contracts on the Polish market and contracts on foreign markets (e.g. contracts on the Czech and Slovak markets, about which the Issuer informed in the current report ESPI 19/2020), including the ongoing cost optimization, will have an impact on further improvement of the Company's results.
