

EN_Current report ESPI No. 10/2021

Subject: Information on quarterly sales revenues in the SaaS channel

Date: 2021-05-17

Legal basis: Other regulations

Content of report:

With reference to the current ESPI report No. 1/2020 and the existing information policy regarding the disclosure of information on quarterly sales revenues in the SaaS channel [software as a services], the Management Board of QuarticOn S.A. [Company, Issuer] informs that, starting from May 17, 2021, decided to change the presentation of information on quarterly sales revenues in the SaaS channel. Due to the fact that the cyclical current reports on sales in the SaaS channel, despite the posted explanations, were often misinterpreted and incorrectly related to the entire sales of the Company, the Issuer decided to resign from the current information policy of informing about quarterly sales revenues in the SaaS channel in current announcements. At the same time, the Issuer decided that, starting from the publication of the report for the first quarter of 2021, in compliance with the generally applicable law, periodic reports will present additional information on subscriptions and the average value of one subscription in terms of all sales of the Company.

Signatures of persons representing the Company:

Paweł Wyborski - CEO

Michał Giergielewicz - CFO
